Stakeholders

[Internal]

Professional Work
Team

[External]

Directors, teachers and high
school students

UVP / USP

Unique Value Proposition / Unique Selling Proposition

Close to the real world. Educational usable complement

Usage Context

Institutional closed access server for internships and
self-learning

Target / Personas

Students of FP de grado medio (+16)

Scheduling

Important Milestones

Configure team and professional profiles	10/02
Evaluate what the clients needs are	15/02
Taking care of Target & Psicology	20/02
Propose Wireframes & Mokuup	25/02
Tables and Relations	28/02
Layout and FrontEnd Development	30/03
Layout and BackEnd Development	30/03
Working test	5/04
Close proyect documentation	7/04
Presentations	12/04

Issues

What problems can arise?

- Software & Hardware dependencies
- Development time available
- Expectations
- Acces to real information

How can you prevent them?

Emulation at the client's proposal
